AMENDMENT

In response to the Office Action mailed May 9, 2002, please enter this  
amendment and consider the following remarks.

IN THE CLAIMS

1. (Amended) A system comprising:

a multifunction machine to supply an electronic document that has been saved in  
the absence of an explicit command by a user to save the electronic document and in  
response to another user specified function associated with the electronic document;

a filter coupled with the multifunction machine to transform the electronic  
document for publication;

a server coupled to the filter, the server having memory to store the electronic  
document, the server permitting access to the electronic document using a document
